Re: Comments to the Marin Condominium PUD Amendment – Building C of Semiahmoo Spit Investments Inc. (the “Application”) in connection with the Public Hearing scheduled for January 10, 2019

Dear Mr. Wenger:

My wife and I would like to echo the comments made by Alan Ogden, president of the Marin Condominium Association, with respect to the above-referenced Application in which the developer requests approval of an update to the architectural standards for Building C of the Marin Planned Unit Development project.

While we are looking forward to the development of Building C, we strongly feel that the design needs to fit with the existing buildings in Semiahmoo and, in particular, with Buildings A and B at Marin. Thus, we urge you to deny the request in the subject Application.

Sincerely,

Maureen and Gordon Smith
