**Subject:** Possible city fixes

Hi there!

My family has lived in Blaine for more than ten years and recently have some concerns.

1. Several home lots look very run down and have cars parked on them. The cars have not moved in months. Trash and used equipment are strewn all over. We are worried that our home values will depreciate. Are there any ordinances that are in place to hold homeowners responsible for the maintenance and upkeep?

2. We love where we live but unfortunately we are not able to get cable internet. Up the street 3 blocks they have Comcast. Is there anyway to see about getting this issue resolved? A neighbor had a hard time selling due to not be able to install internet. Our only option is 1g of speed through DIAL UP. We live in an age where there are drones and 5g cell service.

3. There are no rebates for purchasing newer more efficient heat pumps. I miss out on a \$2000.00 rebate because the city of Blaine doesn't offer any.

If someone could help or give any suggestions that would be greatly appreciated.

Thanks

Anna Loveng
