City of Blaine SMP Update - Comment Mat

Summary of comments received

DAHP permit requird for arch sites

Inadvertant discovery language

Inconsistency between High Intensity, Port Use, and Wharf District Master Plan setbacks. See SMP 9.3.1.C

Requestd clarification about an "open type" bulk head. See SMP 10.10.J

Requested clarification that shoreline stablization policy does preclude replacement structures for water oriented

trix

City Proposed Action

Updated SMP Section 8.1.1.A.1.a - Requirement for a DAHP permit in archaeological sites. (Pg. 56)

SMP Section 8.1.2 - Updated inadvertent discovery language for consistency with DAHP. (Pg. 58)

SMP Section 9.3.1.C – Updated Industrial and Port Use Regulations – Now refers to the Wharf Zoning District of Sp

SMP Section 10.10..J – Shoreline Stabilization Policies – Added new language clarifying “open type” bulkhead cons

SMP Section 10.10.I – Shoreline Stabilization Policies – Clarified allowance of minor waterward encroachment for

Special Management Unit, which is consistent with the Wharf Master Plan. (Pg. 80).

Construction. (Pg. 102)

Replacement structures also applies to water oriented uses. Demonstrated need still applies. (Pg. 103).
